Smart Metering Equipment End-to-End System Audit

- Gas and Electricity Suppliers Standard Licence Conditions (SLC) Smart Metering Technical Specification (SMETS1) End-to-End (E2E) Systems Security Control Audit. Stratia Consulting uses their bespoke and tailored 'CARE' service delivery methodology to Collaborate, Assess, Report and Evolve.

- Complies with Gas & Electricity Suppliers UK Acts of Law (Condition 40 & Condition 46) regulatory mandate to use a Competent Independent Organisation (CIO) able to conduct an annual assessment and review of the SMETS1-E2E to assure its security.

- Ensures the Supplier E2E System and each individual element of it, is designed, installed, operated and supported to compliance of the Appropriate Information Security Standard (ISO 27001).
